

## **Please read this first before reviewing the charts**

Information about this effort can be found online at <http://amcsupport.org/cause/looking-for-height-and-weight-data-for-younger-amcers/>

Data for "traditional" growth charts was taken from the World Health Organization at [https://www.cdc.gov/growthcharts/percentile\\_data\\_files.htm](https://www.cdc.gov/growthcharts/percentile_data_files.htm) can be found in the "Traditional Growth Chart" sheet.

Families and individuals impacted by AMC were permitted to anonymously submit height and weight information online via a Google Form at <https://docs.google.com/forms/d/e/1FAIpQLSdteW2PEcTfxMi5aFUMsjnhRtNcL7fo1NJ8yrc9MZ6oDhOPEg/viewform> . This data can be found in the "Raw Data" sheet. No verification or additional quality control was performed on this data.

Minor corrections were made to submitted data to convert measurements to consistent units (22 and 1/2 inches changed to 22.5 inches) as shown in the "Corrected Data Males" and "Corrected Data Females" sheets.

Data were plotted for AMCs by sex, age, and diagnosis against the WHO growth charts/percentiles. AMCs data are shown in black markers in the sheets: "Weight Chart - Boys", "Weight Chart - Girls", "Length Chart - Boys" and "Length Chart - Girls".
