

# CORPORATE IMPACT PARTNERSHIP PACKET

AMCSI's Corporate Partnership Program is designed to build long-term strategic relationships with organizations committed to advancing healthcare, accessibility, education, and global collaboration. Through targeted investments in research, family support, professional education, and international advocacy, our partners help expand access to critical resources while driving measurable outcomes for a global community affected by Arthrogryposis. Each partnership offers a unique opportunity to align your organization's corporate social responsibility goals with initiatives that deliver lasting impact, meaningful engagement, and measurable results. We can strengthen international collaborations, accelerate awareness and education, fully support arthrogryposis research, and create opportunities that improve lives around the world.

## Global Partnership Programs

Additional Partnership Opportunities

Beyond our Legacy Partnership Program, organizations may choose to align their support with specific initiatives that reflect their philanthropic priorities, community engagement goals, or areas of strategic interest.

Opportunities include:

- Welcome Reception
  - Family Dinner
  - Children’s Programming
  - Teen & Young Adult Program
  - Research Symposium
  - Physician Education Track
  - Annual Conference Prom
  - Annual Conference Mobile App
- Annual Conference Wi-Fi
  - Annual Conference Lanyards
  - Accessibility Services
  - Live Streaming During Annual Conference
  - Registration Experience
  - Annual Conference Prom

## International Ambassador Program

Our International Ambassador Program ensures that the voice of the Arthrogryposis community is represented wherever critical conversations about research, clinical care, and advocacy are taking place around the world.

### Corporate investment supports:

- Representation at international Arthrogryposis meetings and global summits
- Collaboration with leading researchers, physicians, and healthcare organizations
- Global advocacy initiatives
- Translation and distribution of educational resources  
(Spanish, French & website language translation is based on browser settings)
- Development of international partnerships that advance care and research

### Corporate partners receive:

- Recognition on ambassador program materials
- International acknowledgment, where appropriate
- Annual reporting summarizing meetings attended, partnerships established, and measurable outcomes

---

## Measuring Your Impact

Every corporate partner receives an annual impact report demonstrating how their investment is creating meaningful change.

### Reports may include measurable outcomes such as:

- Families served
- Countries represented
- Scholarships awarded
- Healthcare professionals educated
- Research collaborations initiated
- International meetings attended
- Advocacy initiatives completed
- Educational resources distributed
- Digital outreach and engagement

Every organization has unique philanthropic goals. Whether your company is looking to support research, improve patient education, expand global advocacy, or invest in families living with Arthrogryposis, we will work with you to develop a partnership that creates meaningful, measurable impact.

We welcome the opportunity to discuss a customized sponsorship package that aligns with your corporate values, community investment strategy, and business objectives.

To begin the conversation, please contact us via email at: [info@amcsupport.org](mailto:info@amcsupport.org), to explore how we can build a partnership that makes a lasting difference.
