### **ARTHROGRYPOSIS SUPPORT GROUP INTERNATIONAL AMBASSADOR AWARENESS TOUR**

**SPARTANBURG, SC, May 13, 2019**— Arthrogryposis Multiplex Congenita Support, Inc. (AMCSI) international ambassador, Misha Walker, is going on a multi-state tour of the West coast of America from May 27–June 30.

This will be Misha's third time to tour around the U.S. Her first two tours took her through the Midwest and Eastern states.

One of the primary missions of AMCSI is to raise awareness of the condition called arthrothryposis in the United States and abroad. Misha's tours have been exciting events allowing her to interact with other AMCsers and their families. While on tour, several pop-up mini meets occur bringing together local folks with arthrogryposis. She also takes time to interview individuals and families to get their personal perspectives about living with this condition. Once these inspiring and informational videos are edited, they are posted to social media.

If you would like to follow Misha's tour this year, see the Facebook page [Misha Dream Walker/ the long road to AMC Awareness](#).

###

Questions regarding the support group or to request more information about arthrogryposis, and Misha's travels should be directed to the organization's Board of Directors by emailing [amcsibod@gmail.com](mailto:amcsibod@gmail.com).
